

# Intercultural Understanding

In Research Project B, students develop their capability for intercultural understanding by, for example:

- identifying, observing, analysing, and describing characteristics of their own cultural identities and those of others (e.g. group memberships, traditions, values, religious beliefs, and ways of thinking)
- recognising that culture is dynamic and complex and that there is variability within all cultural, linguistic, and religious groups
- learning about and engaging with diverse cultures in ways that recognise commonalities and differences, create connections with others, and cultivate mutual respect
- developing skills to relate to and move between cultures
- acknowledging the social, cultural, linguistic and religious diversity of a nation, including that of Aboriginal and Torres Strait Islander societies in Australia
- recognising the challenges of living in a culturally diverse society and of negotiating, interpreting, and mediating difference.
